International and German academics will have another opportunity to Meet & Greet. Join the workshop and find out how those colleagues of yours roll!

Discover how (business) culture varies in different countries, cultures and environments, share some of your own experiences and learn from others.

This session will be loosely arranged around the topic of networking and will also touch on current topics such as diversity and equality. There will also be room for the participants to ask those questions that you have been waiting to ask.

You will also have time for some unguided casual conversations (and to practise those small talk skills) during the afternoon tea break when coffee and cake will be on offer.

The workshop is taught in English.
